# PROSPECTUS

# Give Your Child The Future-Ready Advantage!

## WELCOME TO THE BCG FAMILY!

The Bombay Cambridge Gurukul schools are unique in that they have evolved out of a philosophy, an idea. It began in 1988 with the awareness that the true meaning of education is yet to be discovered. Inspired by great thinkers of the times, BCG pioneered several educational child-friendly concepts ahead of time. Cognizant that the child today will apply his/her learning in a future that is 20 years away, BCG ensures our faculty is trained to nurture the minds and hearts of the developing child. Today, more than 30 years later, all of our innovations have found validation. Every educator and behaviourist unanimously holds these practices as essential to the growth of children.

- 1989: Focussed on developing a healthy mind, BCG instituted the first **counselling and remedial centre**.
- 1990: **Computer education** was introduced for all students from the age of 6 years.
- 1991: **Stress-free educational practices** adopted, eliminating competition and formal examinations for children upto age 10.
- 1993: To help students make a smooth transition through developmental stages, BCG introduced **life skills education and career guidance** (now SELC).
- 1995: **HRD department** established to create sensitive school environments.
- 1996: Department for **Curricular Planning and Development** instituted to provide the best educational material for our students.
- 1996: **Parent programmes** offered to develop a strong and positive school-parent partnership.

Innovation in education is no one's prerogative. Every child everywhere deserves a good education with caring and sensitive educators. We have been fortunate to have been able to serve and contribute to this field, and have generously shared our learning with the fraternity and the community. To be a part of BCG means to learn along with your child, to share your learning, and to move into the future with confidence and clarity. Our students excel in all fields, at all levels. Their achievements in public examinations and competitions are a matter of pride and a testimonial to our educational philosophy.

As Plato said, "The direction in which education starts a man, will determine his future life." In BCG, **every child matters**... and it is reflected in every plan, process, and practice of our schools. We welcome you to begin your child's journey with us.

**Vikram Patel**  
Chairman

## About Bombay Cambridge Gurukul

### Our Mission

is to provide a dynamic learning environment in school that is committed to achieving excellence in academics and behavior in our students. Our school provides a nurturing climate for children, caring teachers to facilitate the development of 21<sup>st</sup> century skills, and a sensitive curriculum which develops equally the hearts and minds of our students.

### Studying in Bombay Cambridge Gurukul

is an unforgettable experience. Our students are our priority and at the heart of all our planning. It is our constant endeavour to provide learning experiences that are rich in diversity, appeal to multiple learning styles, and empower students with the confidence that comes from experiencing success.

### Our Vision

is to generate world graduates, who possess the crucial skills and values to develop a humane society, and be the fore-runners of thought as responsible citizens of a global community.

## Welcome to Bombay Cambridge International School

Nalini Nair  
Principal

We are a premier K-12 school catering to students from the age of 3 to 17. Our students are at the heart of all our planning.

Since inception, we have been pioneers and trendsetters in the field of education. Our school has been recognized and acknowledged consistently for its progressive approach and vibrant environment. Our mission is to prepare students to be future ready and become responsible global citizens. Keeping this in mind, the curriculum is implemented to cater to the needs of diverse learners, in sync with the latest research and updates. We provide a wholesome education that is dynamic and engaging both inside and outside the classroom. The teaching methodologies equip students with the 21st century skills of communication, collaboration, critical thinking and creativity. Hands on projects, engrossing discussions and differentiation in the classroom lead to happy learners.

Our school has an environment that enhances students' confidence, stimulates their thinking power and hones their creativity. Our Social-Emotional Learning Curriculum, CARE Centre, Student Council and competitive activities keep our students grounded to aim for both – excellence in academics and excellence in behaviour.

Beginning again in the post-Covid world, our priority is to foster an emotional and behavioural safety climate in the school, and equip our teachers with the requisite information and skills to support student welfare. We practice our conviction '**Every Child Matters**' in letter and spirit, and I welcome you to experience it when you visit our warm and sensitive school environment.

BCG Academia provides students with an option to study under the

- Cambridge Assessment International Education, UK (IGCSE) or
- Maharashtra State Board Secondary School Certificate (SSC)

With our highly trained teachers and over 25 years of educational research and refined methodology, we ensure that each student is able to maximize their academic potential.

With World Toppers and A\* achievers in IGCSE and over 75% of our students scoring over 90% in the SSC exams – BCG's superior curricular program caters to every type of learner.

**Multi-Dimensional  
Modes of Learning...**

**...including online**

# Cambridge Assessment International Education, U.K.

Here, at the Bombay Cambridge Gurukul, we take the approach that each child is unique, with special talents and abilities and an individual learning style.

The EYFS or Early Years Foundation Stage sets high standards for inclusive learning and development of children in pre-school years. The cognitive development of the child is highest during these formative years, and the curriculum has been effectively designed to make sure children get to the next stage of learning with confidence.

Our Prep classes offer a safe and caring learning environment, which promotes age appropriate and all-round development. More importantly, students are prepared with the right attitude to learning that will ensure success in mastering the world-class content of the Cambridge course.

Learning through play, activities and field trips, the EYFS course content builds on the inter-connections inherent in:

Communication & Language

Physical Development

Personal, Social & Emotional Development

Literacy

Understanding The World

Mathematics

Expressive Arts & Design

## Cambridge Primary & Secondary Course

**The Cambridge International curriculum sets a global standard for education, and is recognised by universities and employers worldwide. The curriculum is flexible, challenging and inspiring, culturally sensitive yet international in approach.**

Cambridge students develop an informed curiosity and a lasting passion for learning. They also gain the essential skills they need for success at university and in their future careers. Cambridge uses internationally benchmarked tests, giving parents extra trust in the feedback they receive.

The programme at Dr. S. Radhkrishnan International School develops young learners who are confident, responsible, reflective, innovative and engaged. At each stage, students build on their previous learning – and our syllabus design reflects a ‘spiral’ approach, providing a natural progression throughout the primary years and beyond.

The popularity of Cambridge IGCSE curriculum has been steadily increasing among parents because the Cambridge Assessment International Education offers students several advantages over other boards.

Here are some of the biggest benefits and advantages IGCSE offers:

### **A Range of Choices:**

Our students choose subjects by grade 8, so that they can focus their attention and energy on building crucial concepts and skills in a stream of their choice.

### **Proficiency in English:**

With English as a First Language, our learners gain high proficiency and fluency in communication skills, leading to a strong identity and voice in the global space.

### **Global Connect, Local Relevance:**

While IGCSE strongly encourages students to develop a global outlook and promotes international mindedness, our students build strong ties to their local and cultural roots right from the early stages.

### World-Wide Recognition:

CAIE is like the Gold Standard of educational qualifications and is accepted and recognized by the world's best universities, organizations and governments. Several BCG students are now studying or working with the best minds in the world.

### Lessons for Life:

The methodology encouraged by CAIE builds sustainable academic skills in students. With its application based approach, students develop into independent and confident learners.

With its quality assessments and inquiry-based approach to learning, the Cambridge IGCSE ensures that its learners have 21st century skills preparing them to be international citizens of tomorrow.

## A Level Topper

2021-22

Arushi Garud  
**92.8%**

AS and A levels in BCIS East were memorable. We started off online, but the teachers made online classes extremely easy! A big thank you to the school for giving us so many opportunities to explore our talents and interact with others, be it our juniors or the seniors! Transitioning from Grade 10 to AS level in a new school was very smooth for me, as everyone was really kind and made me comfortable immediately.

As everyone knows, A Levels has a really vast syllabus, however the teachers helped us in understanding all of it! From clearing all of our questions, to making us practice the past papers, our teachers made sure that we were thorough with concepts and ready for board exams. Thank you to the school and everyone involved for making these two years enjoyable!

Our schools Dr. S. Radhakrishnan International at Malad (West) and Bombay Cambridge International at Andheri (East) offer the Advanced Levels (A and AS) in the key streams of higher education.

## IGCSE Topper

2021-22

Samriddha Datta  
**95.33%**

The past 12 years spent in my school have been an absolute joyride for me. It is astounding how much I have developed both academically, and as an individual, under this single roof. BCIS East is more than just a school; it is a legacy of enlightening young minds with knowledge, and inculcating values in them which aren't always acquired through textbooks. Luckily for myself, I was here for the full experience, right from kindergarten till high school. My teachers not only taught me, but they also mentored and guided me throughout these years, and were just an ask away whenever I was in need of advice or guidance. I really appreciate the efforts of our school's Centre for CARE for honing our emotional intelligence and instilling useful soft skills like communication, time management, critical thinking, and many more. Time spent with my teachers and classmates in field trips and picnics are cherished as some of the best moments of my life. I'm grateful for every moment that I've spent being a BCGian, because the learnings and morals I take from here define my personality, and I will carry these with me forever.

# Maharashtra State Board (SSC)

The Kindergarten curriculum is implemented using the play-way method, and includes consciously planned activities for all round development. It is designed to match the pace of individual learners and calibrated to their developmental stage. The students enter the world of Primary education with confidence and build on the foundations of skills acquired in pre-school.

### Primary and Secondary education:

The course is as prescribed by the Brihanmumbai Municipal Corporation for the Primary, and as per the Maharashtra State Board of Education for the Secondary section. The teaching methodology uses the prescribed textbooks of the Maharashtra Board and includes field trips, project work, and specially designed worksheets that ensure complete learning and inculcate the habit of self-management.

Students have an environment that allows them freedom for individual expression, and develops the capability that is required to show achievement in the final examinations as per the standards set by the Board. The academic level of students shows that they are well upto the standards of measurement, while at the same time, able to participate in the numerous activities that the school provides for them. The students are bench-marked with the best in the State and participate in various events and competitions organized by the Education Department.

Our students have consistently made us proud with their extraordinary achievement at the SSC Board examinations.

Top Scores: SSC 2021-22

## SSC Topper

2021-22

Prithika Yedery  
**95.60%**

My experience in my school has been extraordinary. Our school Management, teachers and support staff have always been caring and helpful. I not only learnt academics, but also strong life lessons and values which helped me grow as an individual and contributed in shaping my personality. The extra-curricular activities conducted regularly, made going to school fun and kept us engaged. The well-planned infrastructure facilitated the teaching-learning process. The entire environment catered to the growing needs of every student, thereby making education a highly exciting and rewarding experience.

## What is SELC?

Self Awareness

Self Management

Social Awareness

Responsible Decision Making

Relationship Skills

### Life-Skills Education

(Kindergarten to class 10)

- Emotional Management
- Understanding Relationships
- Managing Conflict and Stress
- Safety in the Physical and Cyber World
- Respect for Diversity
- Personal Safety Education (PSE)

### Personal Awareness & Career Explorations (PACE)

(Classes 6-10)

- Streams of Study and Colleges
- Assessments for Self Awareness
- Activities for Exploring Aptitude
- Mykensho and University
- CAP - Career Awareness Program

### Global Responsiveness & Sensitivity Program (GRASP)

(Classes 1-10)

- Care for Living Beings
- Protecting the Environment
- Using the 5Rs - Reduce, Reuse, Recycle, Repair, Refuse
- Conserving Resources
- Nature Camps
- Excursions & Trails

### Annual Fests & Events

(Kindergarten to class 10)

- Kindergarten**
- Kaleidoscope
  - Head-Over-Heels
  - Fun Fair
- Primary/ Secondary**
- Crescendo - Cultural Day
  - Momentum - Sports Meet
  - Effervescence - Exhibition

### Enrichment Activities

(Classes 5-10)

- Global Schools Program (SDG and Community Projects)
- Inter-School Competitions & Tournaments
- External Examinations
- Student Council & House Activities
- Clubs

# The Social-Emotional Learning Curriculum (SELC)

Social and emotional learning (SEL) is the process through which children understand and manage emotions, set and achieve positive goals, feel and show empathy for others, establish and maintain positive relationships, and make responsible decisions.

## 1 Life Skills Education Modules:

The emotional safety and well-being of children is as important as their physical growth and well-being. The life skills sessions are developed by trained and experienced professionals from the field of Education and Psychology to provide platforms for discussions with students at all levels from pre-school to class 10.

## 2 Global Responsiveness and Sensitivity Program (GRASP):

Relationships form the core of all human values, and the programme helps students learn their relationship with themselves, with people around them, and with all elements of their environment. In GRASP sessions, educators provide students opportunities to learn about their environment, the impact of human behaviour, the advantages of diversity, and priorities set in the world agenda. Secondary section students have an opportunity to serve on the Student Council, and involve themselves in the planning and implementation of the Student PEACE Code towards building a positive school environment.

Senior students are provided important life experiences during camp, where they engage in adventure and inter-personal bonding activities under the professional supervision of experienced trainers. Placed in semi rustic conditions and surrounded by nature, students work in teams, explore their inter-personal strengths and challenges, build resilience, learn to care for the environment, and share resources.

### The 5 competencies of SELC:

Self awareness

Self management

Social awareness

Relationship skills

Responsible decision making

### 3 Annual Fests:

With the school's 100% participation policy, every student from Kindergarten to A levels, participates in events that display their particular talents and aptitudes. Students present these skills to their parents in a grand function that is celebratory and euphoric, filling everyone with a deep sense of pride for the school and its students.

#### Performing Arts:

**Kaleidoscope** for the Kindergarten and **Crescendo** for the Primary and Secondary – students display their talents on the annual cultural day, a fine blend of skills and aesthetics learned through their art, craft, dance, drama and music courses.

#### Sports and Games:

**Head-Over-Heels** in Kindergarten and **Momentum** for Primary and Secondary – the Annual Sports Meet is the culmination of fine and gross motor skills learning, set in age appropriate activities, displays and competitive sports. Senior students can opt to be in the school's sports teams for basketball, throw-ball, handball, football and kho-kho, & play at inter-school matches and sports meets. Indoor games such as chess, carrom, table-tennis and badminton are also encouraged in school.

#### School Exhibition:

The school annual exhibition **Effervescence** has students' present to parents their skills with academic projects related to the different subjects they study, and the practical application of key concepts. Students prepare models and charts and demonstrate experiments which showcase their knowledge and skills. In the lower classes, the school organizes a fun-fair where parents can bring their children to enjoy games, rides, and edible treats. It is a great family outing and lots of fun.

What make the annual fests special is that the best of the school is on display, the students and staff play host to our honoured guests – the parents, and a festive environment of camaraderie and excitement pervades the hearts and minds of all present.

### 4 Personal Awareness and Career Explorations (PACE):

The PACE programme provides access to professional online portals so that students can explore their interests and aptitudes. Students acquire the competencies and awareness required to develop a road-map to their further education and future career.

### 5 Enrichment Activities:

Under the **Global Schools Program**, supported by UNESCO, our senior students engage in various community projects that bring to them the experience of civic responsibility, social awareness, understanding realities of different segments of society, value of empathy, compassion and generosity, as well as understanding the power of action. Students learn that they can make a difference, and that real change has to begin with them.

In keeping with the school's belief that competitions and comparison are damaging to children at a young age, BCG introduces **interschool competitions and examinations** from the age of 11 years onwards. From class 5 onwards, students are offered a multitude of opportunities at the national and international level.

With trained teachers to guide their preparations, our students excel in these and their achievements are our pride.

# School Facilities

Our school facilities are consciously planned to provide the best advantage to the learner, and to ensure educators have every teaching method available to them. These systems provide support for all types of learners, and ensure that essential skills for responsible citizenship and personal care are taught to students, leading to successful integration in a rapidly-changing global environment.

- Qualified and Experienced team of educators
- Air-conditioned classrooms
- SMART Board technology
- Contemporary Science Laboratories
- State-of-the-art Computer Centres
- Open-access Library
- Coaching for Games & Sports Activities
- Counselling & Remedial Services
- PACE – Career Development Programme
- Centre for Educational Design & Publishing
- Department of HRD

The transport services of the school are professionally managed, with female staff. The school security system is manned by experienced staff, and supported by CCTV cameras and biometric systems. The school has regular safety audits and an active **Child Protection Policy**.

We have a **dedicated school app** for parents which regularly updates them about the activities in their child's class, their data on school records and notifications about important events. This helps the parent stay current on all information related to their child and the school at the click of a button.

During the pandemic, the school has successfully established a fully functioning online classroom system with Google Classrooms, so that student learning continues effectively. Our fully trained staff rose to the occasion magnificently and guided students and parents into a smooth transition with sensitivity and care, providing exciting and interesting activities for learning on our online platform.

# The School Captains Speak...

There is plenty that I love about my school. Ever since I began my journey in my school, I have been nourished and nurtured in a secure and safe environment. Our school always finds a balance between academics as well as extracurricular activities which has fueled my confidence and encouraged me to do my best. It has made every child feel included, as in our school 'Every Child Matters'.

The education field trips, camps and tours have provided exposure to new places, taught us how to handle freedom with responsibility, and created beautiful memories. All students have been given an opportunity to participate in the Annual Events – Crescendo (Cultural Day) and Momentum (Sports Day) and thereby enhance qualities like public speaking skills and sportsmanship. The interactive sessions during the Social Emotional Learning Curriculum (SEL) classes have helped us build a positive and resilient attitude towards any situation we face in our lives.

I feel that we students are extremely fortunate to have wonderful teachers. The love, support and inspiration they provide helps us reach our desired goals.

With all that our school is doing, I am indebted to it for everything that it has given me and I will always cherish these days of my life.

**Arisia Ravi**  
**School Captain (2022-23)**  
**Bombay Cambridge School**

I am privileged to be in this school for over 10 years now. This memorable experience has added value to my life.

I am grateful for having supportive teachers who give us an opportunity to showcase our potential. They excel when it comes to academics, understanding each student's aptitude. I admire how comfortably our teachers connect to us.

School is not only about studies, it is the backbone of the students' life and personality. Every activity helps to figure out who we are as a person, and to develop and improve ourselves whether it is participating in competitions or brainstorming ideas during a lesson. The SELC (Social Emotional Learning Curriculum) classes provide a platform where students can freely express themselves.

Being in the Student Council has been rewarding as it has given me a chance to represent the school and students, manage events, carefully plan how to achieve goals and display the core values of our school. My peers have always been supportive through the ups and downs, motivating me to 'Never Give Up'. My school has made me chase a bright future ahead, brimming with confidence and positivity!

**Abhimanyu Gunaseelan**  
**School Captain (2022-23)**  
**Bombay Cambridge International School**

# Learning Never Stops In Our School

## BCG's latest venture in the field of education is - The Primary Enrichment Programme (PEP)

The PEP is a unique programme designed keeping in mind the needs of our bright, young students who are curious to discover and know more. It aims to raise self-awareness and bring forth the 21st century skills, helping students become reflective, conscious and critical thinkers. In a two hour, weekly online session, students are exposed to a range of ideas, activities and information. Our dynamic teachers design special learning modules that challenge students to go beyond the standard curriculum and create new and unique modes of independent learning. The concepts covered are chosen judiciously. The teachers, being facilitators, skillfully lead the students to express their imagination and apply the principles of different concepts that expands knowledge and the understanding of the world around them.

We at BCG are excited to broaden our students' experiences and capabilities, and thus push the boundaries of their horizons!

## A BCG initiative for Std. 10 Students – The LEAP Programme (Learning for Enhancing Academic Prowess)

Designed to help our Std. 10 students who excel in academics, the LEAP programme is driven by our senior and highly qualified faculty members possessing over 15 years of experience in being teachers, examiners and moderators in the State Board Exams. They use their expertise and competence to guide the meritorious students to reduce the margin of error, if any, and attain the best score.

A two-hour class, scheduled thrice a week, provides a platform for comprehensive test preparation including intensive practice in writing with a special focus on technique. If required, the teachers go the extra mile scheduling an additional class in the week, as per student need. As subject-mentors, they empower students by clarifying doubts and providing valuable strategies and tips. Students are assessed frequently and their answer sheets are corrected meticulously to train them for the upcoming board exams. The individual and in-depth feedback given to each student helps them to hone their skills, master time-management and maximize their scores. The LEAP programme motivates and prepares our deserving students to go a step beyond to achieve their best.

## Student Achievements

Competition	Name of the student	Class
1 <sup>st</sup> at the State Level & Topper of International Olympiad of English Language	Tanay Soni	Class 5

## Parent Testimonials

We are very happy that our child is learning so much in school. All minor details are taken care of which helps our children to learn and grow in the right direction. Teachers understand the needs of children and know how to help them.

**Hussain Gajipurwala**  
Parent of Shaheen Gajipurwala - Prep 1C

The study environment is very good in school. Teachers give attention to each and every child. There are plenty of activities and programmes for parents like the workshop on Child Safety. Good work done by the teachers after the two years of pandemic.

**Sheetal Gawde**  
Parent of Sacchi Gawde - Jr. KG A

My experience with Bombay Cambridge has been of 17 years now, dating back to 2005. And in this long and wonderful time, I have seen both my kids grow up and develop into confident and secure individuals. The journey of my kids from being timid and silent to bright and exemplary has been worth the wait, to say the least.

I am utmost grateful to the school for helping them chase excellence not only in academics, but also in becoming a good member of the society. That's my favourite thing about BCIS- your kids start with a foundation of success- but more importantly, the school shapes them into becoming generous and kind humans, a quality I feel is the most important in everyone.

BCIS has been a constant support in nurturing my kids, and looking back, I will always be happy that I made the right decision in choosing this school for my kids.

**Maheshwari Gunaseelan**  
Parent of Abhimanyu Gunaseelan - Grade 10 B

Dear Teachers,

Our school has always emphasized on overall personality development, and not just academics. This has been possible only because of our beloved teachers. Most of my abilities and capacities have been recognized and enhanced by you!

I feel ecstatic to visit school on Independence Day and Republic Day to meet and greet the teachers.

Thank you for making my school life memorable.

Warm Regards,

Niharika Fitter  
Ex-Student, Batch of 2014

I would really like to thank the class teacher for the way she took online classes, and also for the way she looks after students, now that the school is offline. My son likes her very much and listens to her instructions. The best thing I like about Bombay Cambridge School is they treat all children equally and do not differentiate based on the child's learning ability. They never give up on their children. I am so glad to have my son in this school. So a big Thank You!

Mandeep Singh Chandok  
Parent of Sahejvir Singh Chandok - Std. 3A

Thank you teachers for the work you do every day, and for the difference you make in the lives of our children and their families. We – the parents, and your students – appreciate you. And yet gratitude and appreciation are not enough to thank you for all the contributions you make to positively impact children's lives and their future. You make thousands of decisions every day, and they all matter so much because they all have an impact on young people. You are shaping their future, and we owe you such a debt of gratitude. Thank you for doing what you do, for going above and beyond every day. We appreciate you and we see you. Thank you for loving our children – your students – and thank you for continuing to change the world.

With much love and gratitude,

Myron Mendes  
Parent of Lucas and Nikko - Grade 2A

# Gurukul Song

We are the Leaders that inspire  
We are the spirit of the People  
We are the Force that's driven  
To achieve the impossible

Chorus  
We dream and we know  
We care and we show  
We are the teachers and  
We are the learners  
Forever thus we grow (2)

We are the wave  
We are the ocean  
We are the heirs  
To the legacy of Reason  
We are the Force that's driven  
To achieve the impossible  
(Repeat chorus)

We are the light  
We are the laughter  
We are the caretakers  
Of Time hereafter  
We can change the lives  
Of all like you and me  
We can turn the tide  
And create the land and sea  
(Repeat chorus)

We are the Leaders that inspire  
We are the spirit of the People  
We are the Force that's driven  
To achieve the impossible  
(Repeat chorus)

## Our Mentor

The LeAD offers programmes for schools and its various stakeholders, towards developing an environment conducive to student's healthy growth and development. Students are challenged with rapid changes in the social and technological environment, while adults are struggling to guide them. LeAD provides many opportunities for adults and students to brainstorm, discuss, and learn based on professional research and study. LeAD provides training programs, workshops and consultation to educators, parents, and students, in BCG and in the larger educational community.

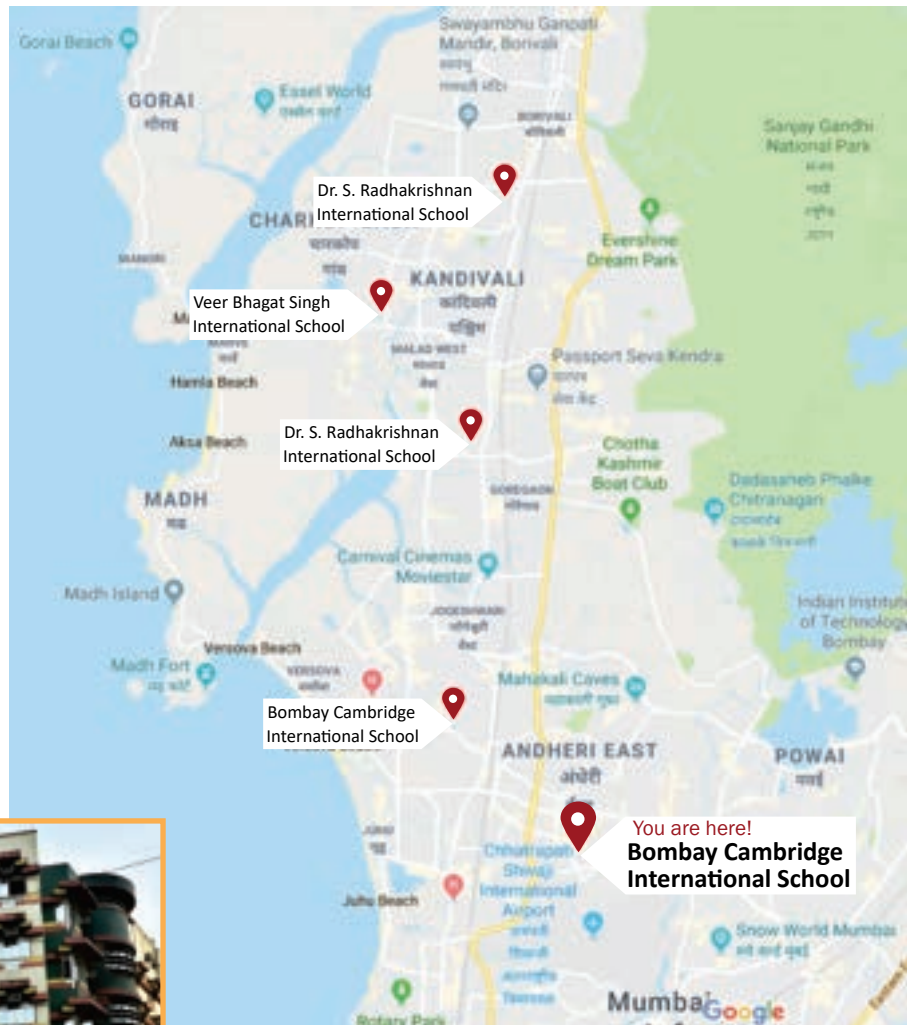

CEDP is the BCG's hub for academic analysis and development. Comprised of professionals, they study syllabi and develop learning material for teachers and students, including worksheets. Guided by the CEO, they provide content that supplements the course plan as well as material that enriches the teaching-learning process. In addition, they design and develop resources for educators, customizing it to their requirements. Their high quality services ensure that the BCG schools are always well supported and equipped with the best curricular material.

“ The highest education is that which does not merely give us information but makes our life in harmony with all existence. ”

**Rabindranath Tagore**  
(1861 - 1941)
