Welcome to the BCG family!

The Bombay Cambridge Gurukul schools are unique in that they have evolved out of a philosophy, an idea. Since 1988, inspired by great thinkers of the times, BCG pioneered the concept of 'caring schools', introducing several child-friendly concepts ahead of time, validated today by educational research across the globe.

Cognizant that the child today will apply his/her learning in a future that is 20 years away, BCG schools have a robust digital, life skills and curricular program. Our alumni are spread across the globe, and are active mentors to our students.

In BCG, **every child matters**, and it is reflected in every step of our course plan and activities. Our educational program is driven by our mission – excellence in academics and excellence in behaviour! We take pride in our students' accomplishments, and their achievements are a testimonial to our educational philosophy.

Parents play an integral role in setting direction for their child, and our partnership will provide the impetus for success. We welcome you to begin your child's journey with us, and look forward to a long lasting and enriching relationship.

Vikram Patel
Chairman

Our Mission is to provide a dynamic learning environment in school that is committed to achieving excellence in academics and behaviour in our students. Our school provides a nurturing climate for children, caring teachers to facilitate the development of 21st-century skills and a sensitive curriculum which develops equally the hearts and minds of our students.

Our Vision is to generate world graduates, who possess the crucial skills and values to develop a humane society and be the fore-runners of thought as responsible citizens of a global community.

It is my privilege to introduce you to an institution, where excellence in education meets holistic development.

We take pride in offering a comprehensive K-12 education that blends the best of the curriculum with a strong focus on nurturing 21st-century skills. What sets us apart is our commitment to the social and emotional well-being of our students. For our youngest learners, we have created a stress-free environment by eschewing competitive pressures. As students progress into middle and high school, they are presented with multifaceted opportunities for both competition and collaboration. Our dedicated CARE team ensures the well-being of every student, while our Student Council fosters leadership skills. Our belief, 'Where every child matters', underscores our commitment to placing students at the center of everything we do, making parents and the school true partners in their all-round development.

Our mission is to achieve excellence in behavior and academics, and we are dedicated to realizing it in every child. I urge you to take the time to visit us and witness firsthand the nurturing environment where your child's potential can flourish.

Manisha Xavier
Principal

Consistently receiving awards and recognition on various platforms over the years.

BCG Academia provides students with an option to study under the Cambridge Assessment International Education, UK (IGCSE) or Maharashtra State Board Secondary School Certificate (SSC).

With our highly trained teachers and over 25 years of educational research and refined methodology, we ensure that each student is able to maximize their academic potential.

With World Toppers and A* achievers in IGCSE and over 75% of our students scoring over 90% in the SSC exams – BCG's superior curricular program caters to every type of learner.

Gurukul Kindergarten

The Kindergarten curriculum is implemented using the play-way method and includes consciously planned activities for all-round development. It is designed to match the pace of individual learners and calibrated to their developmental stage. The students enter the world of Primary education with confidence and build on the foundations of skills acquired in preschool.

Primary and Secondary Education

The course is as prescribed by the Brihanmumbai Municipal Corporation for the Primary, and as per the Maharashtra State Board of Education for the Secondary section. The teaching methodology uses the prescribed textbooks of the Maharashtra Board and includes field trips, project work, and specially designed worksheets that ensure complete learning and inculcate the habit of self-management.

Students have an environment that allows them freedom for individual expression and develops the capability that is required to show achievement in the final examinations as per the standards set by the Board. The academic level of students shows that they are well up to the standards of measurement, while at the same time, able to participate in the numerous activities that the school provides for them. The students are bench-marked with the best in the State and participate in various events and competitions organized by the Education Department.

Our students have consistently made us proud with their extraordinary achievement at the SSC Board examinations.

SSC Topper 2022-23

My school experience has been wonderful. The memories of kindergarten teachers always bring immense happiness. The Primary section teachers were very supportive, and they helped me break out of my shell and become the confident person I am today. The Secondary section is full of opportunities where the teachers encourage students to go ahead and explore their talents. The Student Council is a platform where I learned about Teamwork and Leadership. The extracurricular activities in my school enriched social growth and the CARE staff provided unwavering support. The school faculty made sure that every part of this journey went smoothly. They helped us by supporting us and providing us with the best resources. I thank all my teachers, my Principal, and all staff members for their contribution to nurturing us and making sure we succeed. Today, all I wish is to turn back the clock and relive everything again, without any change.

BCG Initiatives

Learning for Enhancing Academic Prowess (LEAP) - Designed to help our Std. 10 students who excel in academics, the BCG LEAP program is driven by our senior and highly qualified faculty members. They use their expertise and competence to guide the meritorious students to reduce the margin of error, if any, and attain the best score through individual and in-depth guidance and feedback thereby helping them to hone their content skills, master time-management and test preparation, and maximize their scores.

School Facilities

Our school facilities are consciously planned to provide the best advantage to the learner and to ensure educators have every teaching method available to them. These systems ensure that essential skills for responsible citizenship and personal care are taught to students.

- Qualified and Experienced team of educators
- Air-conditioned classrooms
- SMART Board technology
- Hybrid Learning through Google Classrooms
- Contemporary Science Laboratories
