Manisha Xavier
Principal

From the Principal's Desk

It is with great pleasure I welcome you to Bombay Cambridge International School, a premier, K-12 School, where excellence in education meets holistic development.

Our AS & A Level curriculum is meticulously designed to prepare students for the challenges of higher education and beyond. We offer a diverse range of subjects, ensuring that students have the opportunity to explore their interests and passions.

Our experienced, trained, and dedicated faculty members guide and nurture the intellectual curiosity and critical thinking skills, essential for success in today's dynamic world.

Choosing the right institution for a child's higher education is a crucial decision for a parent. I invite you to explore our campus, engage with our faculty, and witness first - hand the nurturing environment we offer.

Warm regards,
Principal
Bombay Cambridge International School

Cambridge International AS & A Levels

The Cambridge International AS & A Level Program serves as a robust foundation for students aged 16–19, facilitating their transition to university education and beyond. In India, AS and A Levels are viewed as equivalent to classes 11 & 12.

Benefits of pursuing Cambridge AS & A Level education include -

Global Recognition

By universities, employers, and governments, that serves as proof of academic achievement.

Rigorous Curriculum

That fosters a deep subject understanding, cultivating critical thinking and analytical skills.

Holistic Development

Beyond subject knowledge where students gain research, problem-solving, and communication skills, vital for higher education and the workforce.

University Preparation

Equips students with knowledge and academic skills, preparing them effectively for university - level education.

International Perspective

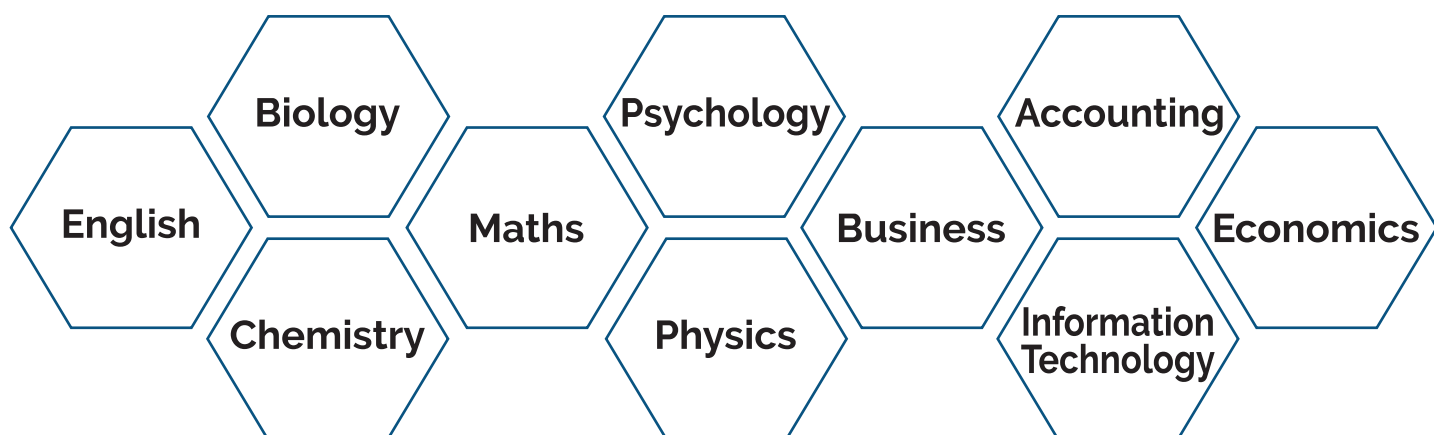

That enriches students' understanding of global issues in our interconnected world.

A research-based approach

That ensures the curriculum is relevant, aligned with global standards, and up-to-date in content.

Subjects Offered in our School

Eligibility

The course enrolment is open to all students of all Boards – IGCSE, IB, ICSE, CBSE, SSC – conditional to student performance.

Why Choose BCISE For Your Child's Academic Journey?

In our school, Every Child Matters. Aligned with our steadfast commitment to quality education, our school provides a student-centered, strategically crafted curriculum fostering an international perspective, and nurturing confident, global citizens.

Here are aspects that our students and parents particularly appreciate -

A tailor-made program designed to provide our students with the optimal advantage for advanced studies.

A challenging yet supportive environment aimed at assisting students in mastering the course content.

Personalized attention, with educators possessing a keen understanding of their students' strengths and challenges.

A faculty with strong subject expertise and valuable experience with the Cambridge curriculum and assessments.

Easy access to a wide range of resources that supplement their syllabus.

A welcoming, supportive atmosphere that allows students to blend in successfully and feel quickly at ease.

Thorough preparation for examinations including revision, practice test papers, and assessments.

Precise, timely, and constructive feedback to aid continuous improvement.

A comprehensive career counselling for subject choices, stream selection, successful university applications, and informed career decisions.

Camps And Trips

To promote teamwork and personal growth beyond the classroom.

Professional Career Guidance

To explore opportunities in India and abroad.

Counselling Facilities

To support students to thrive academically and personally.

Testimonials

My son's journey so far has been very wonderful and exhilarating. Thanks to his teachers, his studies were significantly better in the offline school. Though he felt the AS portion was vast, he was very relaxed by the time his board exams began. And he found AL less taxing and stress-free. The school itself also was very considerate when it came to the administration procedures. The teachers were very approachable and were always available to answer our questions.

PREETHI R.

Parent of Kartik Nair
(AL student - Batch of 2023)

Opting for AS and A Levels at BCIS East for my daughter Dakshata was a wise decision.

AS and A Levels is a rich curriculum, encouraging in-depth learning in each subject. It helped my daughter develop application and decision-making skills beyond academics which are useful in the real world. It also shaped the overall personality, and my daughter grew to be more confident.

Though the syllabus is vast, the teachers and faculty members of BCIS East were always present to make the journey easier, providing help with academics, career guidance, or any other issue.

In a world that values skills and personality, A Level is the right choice, and BCIS East is a good institution for pursuing it.

NEELAM KANSARA

Parent of Dakshata Kansara
(AL student - Batch of 2023)

Doing AS and A Levels in BCIS East was the best decision I could have taken after grade 10. Transitioning from grade 10 to A Level was very smooth, thanks to all the teachers at BCIS East! My A Level experience at BCIS East laid a solid foundation for my current pursuit of a degree in Bioanalytical Sciences. The comprehensive science syllabus, hands-on lab experience, and application-based exam questions were invaluable. The support and thorough preparation provided by BCIS East teachers not only prepared me for board exams but also equipped me for further studies in this research-based field. Grateful for the strong base that has set me on the right path.

ARUSHI GARUD

A - Level Topper
(Science Stream 2022)

My experience at A Level has been enriching and has contributed to my personal development. The rigorous curriculum and the committed faculty members' assistance created an interesting and safe atmosphere for studying. Having an application-based curriculum, A Level helped me develop my critical thinking and decision-making skills, which proved to be useful in my university studies as well. Not only academics, but extracurricular activities like weekly debates helped me polish my public speaking and cultivated confidence within me, while the games period got the whole class together and helped us bond with each other and create memories that we would cherish forever. It was definitely worth it.
